Augustana College   **Rock Island, IL**
BS, Computer Science, GPA: 3.9   *Expected May 2023*
- Data Structures, Algorithms & Computational Theory, Software Development, Database Management, Computer Systems.

WORK EXPERIENCE

City of Rock Island & Augustana College   **Rock Island, IL**
Public Outreach   *October 2022-Present*
- Use data gathered by researching case studies and users to create positive, educational, information for the citizens of Rock Island.
- Set a standard of excellence in the content being created, while continually validating ideas throughout the lifecycle of the project.
- Write about, and present findings to team members to help cultivate a growth mindset throughout the departments in the project.

Augustana Computer Science Department   **Rock Island, IL**
UX/UI Designer, Scrum Master, Java Developer   *September 2022 - December 2022*
- Lead a team of 3 other developers in designing and launching a Computer Aided Design software.
- Improved the efficiency of the design process by leading research into user needs, wireframing and testing prototypes, and communicating findings with my team members.
- Provided regular feedback throughout the design and development process using Discord and Scrum Standups.
- Increased usability in designs through user research and feedback throughout the iterative process of development.

Augustana Web Guild   **Rock Island, IL**
Project Lead, Web Designer   *October 2021 - January 2022*
- Worked with local business owners to design their websites.
- Presented client needs to the design team and communicated between the design and development team to achieve the client's needs.
